

STENHØJ FlexiPress

Standard equipment

- Double-acting cylinder assembly mounted in the press frame
- Adjustment of press bed with the pressing cylinder
- Flanged piston rod end for tool mounting
- Replaceable nose cap
- 2 V-blocks/straightening blocks
- Hand pump or motorised pump unit

Function and operation

■ Manual pump unit

- The hand pump is a 2-stage model, equipped with double piston
- Change-over between low/high pressure and return manually on the reverse valve
- Return movement by means of pressure air, which gives a fast return movement
- The equipment is connected to external compressed air supply

■ Motorised pump unit

- Operation of the press is via a single hand operated control valve allowing for infinite adjustment of the ram speed proportional to the control valve position
- Press force is adjustable

Optional extras

- Press bed
- Laterally movable cylinder
- Press cylinder with increased stroke length
- Motorised pump unit for special applications

Tools/accessories

The FlexiPress can, if required, be supplied with tooling for various applications, e.g.

- Assembly/Disassembly
- Embossing
- Tube and Section Bending
- Straightening
- Flanging
- Punching/Blanking
- Broaching
- Crimping for winch assembly

FlexiPress Models

- 16t – 400 t

Built in accordance with the latest EC regulations and CE labelled.

Return speed		mm/s	15	15	13	15	14	10	22	14
Return force, max.		kN	30	30	30	30	30	150	200	200
Motor power 3x400V, 50 Hz		kW	2,5	2,5	2,5	2,5	2,5	2,5	3,0	3,0
Oil reservoir capacity		liter	25	25	25	25	25	25	35	35

Optional Extras for FlexiPress

- A: T-slotted press bed mounted on press table
- B: Laterally movable cylinder
- C: Increased stroke length on press cylinder
- D: Motorized power unit with special specifications

Example of order code:

FlexiPress model FP40M-A-B
 Motorized power unit/Press bed/
 Laterally movable cylinder

*) Reduced permissible max. press force in extreme position

Subject to changes without notice.
